GWup Week 1 - page 1

On June 3, 1897, Mr. John Sievers Jr. put up a figure of a cow in his back pasture. As the herd of cattle talked about the strange, new phenomenon, one young heifer suggested that Mr. Sievers had developed insulated underwear for them to wear during the winter months.

Suddenly Mr. Sievers and a friend ambulated into view. The curious cows watched as the men approached the cow figure, opened the neck, and climbed inside.

“Oh, no! They've transformed themselves into one of us!” cried the young heifer.
